Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction to one of the following inventions is required under 350 USC 121:

Group I: claims 1-4, drawn to a "packaging material" (i.e. a material capable of being used in a package, classified in class 428.

Group II: claim 5, drawn to a cover, classified in class 220.

Group III: claim 6, drawn to a package, classified in class 426.

The inventions are distinct, each from the other, because the material of Group I can be used in ways other than as a cover or as a package. For example, the material as claimed in Group I could be used as a valve system for heated liquids placed at the end of an opening in a pipe or a dispenser such as the outlet of a hot water dispenser in a coffee making machine. Also, the cover of Group II and the package of Group III are also mutually exclusive.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as show by their different classification, restriction for examination purposes as indicated as proper.

Also, if applicant elects Groups I, applicant must elect one species from the following election of species requirement.

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, wherein the packing material includes a heat sealing agent.

Species II, wherein the packing material includes a release agent.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
